

Meeting OM

- meeting a Master of the Silent Tradition

*„Simply see with open eyes and open mind.
Without hanging on to anything, by looking through into the depth of yourself.
The realization of man can be found only in the act of being human itself
- being human while being aware of the eternity of Being.“*

OM C. Parkin

Private Darshan

OM C. Parkin is a renowned European wisdom teacher and the founder of the mystery school Enneallionce and Gut Saunstorf, a modern monastery.

In his work OM embodies the link between Eastern non-duality and Christian mysticism, of depth psychology and philosophy, beyond the limits of religions and confessions.

Meeting an impersonal teacher of the silent tradition is an intense, silent experience.

OM teaches people to explore the illusory world of the ego and accompanies them on the path of awakening and back into the core of their SELF. In Darshan, OM makes himself available for enlightening conversations and being together in silence. His clear and at the same time loving response to the questions and messages is an invitation to listen openly and in a completely new way with the heart. Everybody is invited to ask questions or to share. You are very welcome.
